

## She's So High – Tal Bachman

Dashed chord pairs indicate to play each chord for half as long as usual.

G                    D - C                    G                    D - C  
 She's blood, flesh and bone, no tucks or silicone  
 G                    D - C                    G                    G  
 She's touch, smell, sight, taste and sound  
                   D                    C                    G                    G  
 But somehow I can't believe that anything should happen  
 D                    C                    G  
 I know where I belong and nothing's gonna happen  
                   D                    D  
 Yeah, yeah

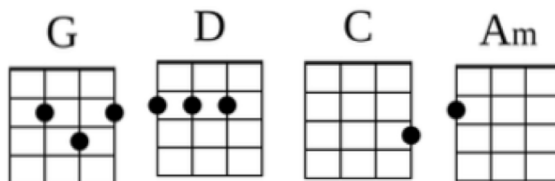

### [Chorus]

                  Am   C                    G                    D  
 'Cause she's so hi - igh... High above me, she's so lovely  
                   Am   C                    G                    D                    Am   C                    G   D  
 She's so hi - igh... Like Cleopatra, Joan of Arc, or Aphro-di-i-te  
                   Am   C                    G                    G  
 She's so hi - igh... High above me

G                    D - C                    G                    D - C  
 First class and fancy free, she's high so-cie-ty  
 G                    D - C                    G                    G  
 She's got the best of everything  
 D                    C                    G                    G  
 What could a guy like me ever really offer?  
 D                    C                    G                    D                    D  
 She's perfect as she can be, why should I even bother?

### [Repeat Chorus]

G                    D - C                    G                    D - C  
 She comes to speak to me, I freeze immediately  
 G                    D - C                    G                    G  
 'Cause what she says sounds so unreal  
                   D                    C                    G                    G  
 But somehow I can't believe that anything should happen  
 D                    C                    G  
 I know where I belong and nothing's gonna happen  
                   D                    D  
 Yeah, yeah

### [Repeat Chorus]
